

DUKANE SEACOM INC. ACQUIRES AVIATION & MARINE UNDERWATER LOCATOR BEACON ASSETS FROM RJE INTERNATIONAL

SARASOTA, FL – On December 4, 2015 Dukane Seacom Inc., a HEICO company, acquired the former aviation and marine underwater locator beacon (ULB) assets of RJE International. These products were formerly known as the Benthos ULB product. Dukane Seacom will now offer the entire ELP-362(XXX) ULB product line and associated test equipment, along Seacom’s DK-Series ULB products. This includes the only TSO certified 90-day battery life aviation beacons.

Located in Sarasota, Florida, Dukane Seacom is the leader in underwater locator beacon technology. With over 40 years of industry experience and a combined install base of over 100,000 units, Dukane Seacom has the technical expertise and unmatched operation capacity to provide total life cycle support for the aviation and marine recorder markets with the DK-Series and ELP-362(XXX) product lines.

“We are extremely excited to add the RJE aviation and marine ULB product lines to our capabilities. The combined product family will be able to address the entire spectrum of ULB needs for the aviation and marine recorder markets,” stated Anish Patel, President of Dukane Seacom Inc.

The RJE aviation and marine ULB product lines will transition to the Sarasota, Florida facility over the next 2 months and be integrated in the existing Dukane Seacom production and test facility.

Dukane Seacom beacons are installed on the global commercial and business jet aircraft fleets, military fixed wing and rotary aircraft, as well as maritime and specialty underwater applications.
